

2022 CalVCB Trauma Recovery Center (TRC) Grant Program Narrative Qualifications

Please provide narrative responses that address the requirements of the government code sections related to the question.

Qualification 1

Please provide examples of your organization's experience or ability to provide outreach to crime victims who typically are unable to access traditional services. Describe how you ensure that no person is excluded from services solely on the basis of emotional or behavioral issues resulting from trauma, substance abuse, low initial motivation, high levels of anxiety, or based on immigration status. (California Government Code section 13693.2)

Qualification 2

Please provide examples of your organization's experience or ability to provide services to victims of a wide range of crimes, including, but not limited to, victims of sexual assault, domestic violence, physical assault, shooting, stabbing, human trafficking, and vehicular assault, as well as family members of homicide victims. (California Government Code section 13963.2)

Qualification 3

Provide examples of your organization's experience and or ability to serve as a community resource by making presentations and providing training to law enforcement, community-based agencies, and other care providers on the identification and effects of violent crime. (California Government Code section 13963.2)

Qualification 4

Provide specific examples of your organization's experience and or ability to offer evidence-based and evidence-informed mental health services and support services. (California Government Code section 13963.2)

Qualification 5

Provide examples of your organization's experience and or ability to utilize a multidisciplinary team of clinicians. Describe how this multidisciplinary team will assist with medication management, provide consultation, and assist with treatment to meet the clinical needs of victims. (California Government Code section 13963.2)

Qualification 6

Provide examples of your organization's experience and or ability to serve the greatest number of victims based on geographic location. Include considerations such as such as, crime rate in your service area, segments of the population to be served, availability of similar services in your area and the impact or deficit to the community if not funded. (California Government Code section 13963.1)
